**PRESIDENT'S MESSAGE**

**By David Stuart**

Businesses in the Creve Coeur – Olivette corridor continue to perform better than businesses in many other areas of St. Louis. We have new businesses opening each month. Newly constructed commercial properties continue to be added to accommodate our growing community. The restaurants in our area benefit from a significant number of businesses, in addition to an inviting environment. We are even experiencing a growth in medical related enterprises.

As chamber members, we can do our part to help accelerate the economic growth in our community. Whenever we are in need of a product or service, we should seek out other chamber members who can possibly provide that product or service before we turn to businesses outside our chamber. Remember, 'Chamber First'.

Although there are some indications of a recovery, it is generally accepted that we are still in a difficult economic environment. Add this to the events we are witnessing around the world and it can be overwhelming. Maintaining the proper perspective is important in times such as these. Without question, we are experiencing a weak economy in the U.S., but fortunately we are not faced with a tragedy such as in Japan or the turbulence in the Middle East. More than just their economies have been impacted. From the perspective of many, we have much to be thankful for. Let's stay focused, work with one another, and have an outstanding 2011.

## DOCTORS EXPRESS URGENT CARE RIBBON CUTTING

Photo courtesy of McCarty Photography

Doctors Express opened in mid-February at 747 North New Ballas Road. Doctors Express was founded in Baltimore in 2005 by an emergency room physician and two business executives in Towson, Maryland, seeking a more efficient, affordable and personable system for urgent care patients. Doctors Express walk-in medical centers are sweeping across the country as America’s first nationally branded urgent care centers. Doctors Express provides state-of-the-art, non-emergency treatment for acute illness, trauma and sports injuries (including minor surgical procedures) and has on-site laboratory and digital x-ray service. Pre-employment physicals, drug screening and treatment of work related injuries are also available to local employers. Visit [DoctorsExpress.com](http://DoctorsExpress.com).

The concept behind Doctors Express is to redefine the patient experience by eliminating long waits associated with doctor’s office or emergency room visits. Local physician Dr. Bernie Rancho will team up with businessman Jeff Maurer who was awarded the territory for Missouri and plans to open Doctors Express centers throughout the state.

“Urgent care fills a void in the medical system, treating those cases which do not require the resources and expense of a hospital emergency room,” says Dr. Rancho. “Patients want to be treated by experienced physicians without sitting around all day in a waiting room. We believe Doctors Express is an efficient, low-cost healthcare solution that will improve access to quality medical care throughout St. Louis County.”

Doctors Express walk-in medical centers stand out from other urgent cares by offering a consistent, broad range of treatment and services on the spot. Doctors will diagnose and treat illnesses, dispense medication and have the capabilities to x-ray and set broken bones, all under one roof. An on-site lab will give quick test results for ailments such as mono and strep throat and will provide physical exams, drug screenings and inoculations for local employers. Plus, the average wait time to see a Doctors Express physician is only 15 – 20 minutes.

Doctors Express is open 8:00 a.m. to 8:00 p.m. everyday. Terry Cutler, Nurse Administrator, is our chamber representative and she may be reached at Doctors Express at 314-991-3030.
